

# Simplifying material movement, inventory, valuation, and costing by activation of Material Ledger in S/4HANA

LOCATION  
India

DOMAIN  
Manufacturing

## About Client

The client is in the business of manufacturing household products. They offer a wide range of products in industries such as footwear, detergents, wind energy, dairy products, and real estate sectors.

## Business Requirement

The system is not taking inventory valuation into account while using standard price of the purchase order and posting the price variance of the actual receipt.

- Verify the actual costing of materials
- Evaluation of the goods movement with constant pricing during a period

## Our Solution

- Material Ledger as a valuation method for inventory while using SAP
- Standard price control with the system which evaluates the goods movement
- Ensured consistent cost management
- Collection of all material movements and variances (goods receipts, invoice receipts, goods issue etc.) to calculate a periodic actual cost

## Key Features

- Material prices in multiple currencies and valuations
- Collect all material movements and variances
- Material ledger as a mandatory feature with S/4HANA implementation

# Technology Stack

**S/4 HANA**

## Business Outcome

- Accurate and real-time business reporting
- Simpler and improved business process

Established in 2000, Cygnet Infotech works with clients across 35 countries and has a strong team of over 1000 employees.
